Wordlock

Just what the name suggest, this handy lock allows a child to set their own combination using letters instead of numbers. The Text Lock version lets you choose from three-letter combinations and Wordlock [bike locks and padlocks] can have four or five-letter word combinations to keep lockers, bikes or bags secure. Wordlocks come in a variety of colors and styles from a padlock to cable and bike locks.

(\$8.99-\$18.99, Target, Ace Hardware, True Value and other major retailers or www.wordlock.com)
